BEANS — DWARF WAX

BRITTLE WAX (Round Pod Kidney)

5½ in. slightly curved deep yellow round meaty stringless pod. Season 62 days.

Canning variety.

DAVIS STRINGLESS WHITE WAX

6 to 6½ in. flat slightly curved light yellow stringless pod. Season 52 days.

PENCIL POD BLACK WAX

6½ in. round, slightly curved deep yellow stringless pod. Season 59 days.

ROGERS IMPROVED KIDNEY WAX

6 in. oval straight deep yellow stringless pod. Season 62 days.

Canning variety.

Brittle Wax

BEANS — DWARF WAX

STRINGLESS REFUGEE WAX

4½ in. round curved, yellow stringless pod. Season 58 days.

Canning variety.

SURE CROP BLACK WAX

6½ in. flat, straight, deep yellow stringless pod. Season 62 days.

TOP NOTCH GOLDEN WAX

5 in. flat straight, yellow stringless pod. Season 50 days.

UNRIVALLED WAX

5 in. narrow, fairly straight fleshy yellow pod, nearly stringless. Season 53 days.

WARDWELLS KIDNEY WAX

6½ in. flat, straight, deep yellow stringless pod. Season 58 days.

WEBBER WAX

6 in. flat, straight, deep yellow, stringless pod. Season 50 days.

BEANS — DWARF GREEN

BLACK VALENTINE

6 in. slim straight, semi-round dark green pod. Strings. Season 54 days.

BOUNTIFUL

8 in. straight broad, flat light green stringless pod. Season 51 days.

BURPEE'S STRINGLESS

5 in. slightly curved, round green fleshy stringless pod. Season 54 days.

Canning variety.

FRENCH HORTICULTURAL

7 in. broad, flat green pod streaked with red. Strings. Season 70 days.

BEANS — DWARF GREEN

FULL MEASURE

6 in. fairly straight, dark green round stringless pod.
Season 60 days.

Canning variety.

GIANT STRINGLESS

6 in. round fairly straight, light green stringless pod.
Season 56 days.

Canning variety.

IDAHO MOSAIC RESISTANT REFUGEE

5½ in. round, slightly curved, medium green stringless pod. Season 66 days.

Canning variety.

LANDRETH'S STRINGLESS GREEN POD

6 to 7 in. fairly straight, round dark green stringless pod.
Season 54 days.

Canning variety.

Full Measure

BEANS — DWARF GREEN

NEW STRINGLESS GREEN POD (Tendergreen)

5½ to 6½ in. medium light, slightly curved, stringless pod. Season 56 days.

Canning variety.

RED KIDNEY (Dark)

5 in. broad, flat green pod. Strings. Season 62 days.
Seed—mahogany red.

RED KIDNEY (Light)

6½ in. wide flat green pod. Strings. Season 62 days.
Seed—light red.

RED VALENTINE

6 in. fairly straight green pod. Strings. Season 54 days.

ROGERS STRINGLESS BLACK VALENTINE

6 in. fairly straight, round dark green stringless pod.
Season 55 days.

ROGERS STRINGLESS REFUGEE

5½ in. round, slightly curved light green stringless pod.
Season 68 days.

Canning variety.

RUBY DWARF HORTICULTURAL

5 in. broad flat light green, stringless pod streaked with red. Season 58 days.

STRINGLESS BLACK VALENTINE

5½ to 6½ in. slightly curved, flat or semi-flat stringless pod. Season 55 days.

STRINGLESS RED VALENTINE

5 in. curved round green stringless pod. Season 54 days.

U. S. NO. 5 REFUGEE

5½ in. round, straight, medium, green stringless pod.
Season 64 days. This strain is very even in its maturity and is mosaic resistant.

Canning variety.

Western Peas and Beans

BEANS — DWARF GREEN

TENNESSEE GREEN POD

8 in. flat, very broad dark green pod. Strings. Season 52 days.

WHITE KIDNEY

6½ in. flat wide green pod. Strings. Season 72 days.
Seed—white.

WHITE MARROW

4½ in. semi-round pod. Strings. Excellent shell bean.
Season 66 days.

Idaho Refugee

BEANS — POLE

DUTCH CASE KNIFE

Vine—4 ft. climber silvery green. Pod—9 in. straight, flat, stringy, $\frac{7}{8}$ in. wide. Seed—flat, oval, curved, 65 per oz. Season 65 days.

GOLDEN CLUSTER WAX

Vine—4½ ft. yellowish green, crinkled leaf, climber. Pods—7 in. waxy yellow fleshy, stringless flat curved. Seed—grayish white, oval, 70 per oz. Season 70 days.

IDEAL MARKET POLE

Vine—3½ ft. climber, fine foliage. Pods—5 in. round, slightly curved, silver green and stringless when young. Seed—oblong, plump, jet black, 105 per oz. Season 60 days.

KENTUCKY WONDER (Brown)

Vine—climber, 5 ft. vigorous, leaves med. green, large and crumpled. Pods—8½ in. round, constricted, curved, silver green, brittle, almost stringless. Seed—Reniform, flat, oval, mahogany to buff brown, 88 per oz. Season 65 days.

KENTUCKY WONDER (White)

Vine—climber, med. growth, 4 ft. Open leaves, large, med. green. Pods—8 in. straight, round, stringless, fleshy, silver green. Seed—Reniform, round oval in cross section, very plump, white, 65 per oz. Season 62 days.

KENTUCKY WONDER WAX

Vine—open, good climber, dull green. Pods—8 in. flat, fleshy, curved, glossy yellow. Seed—flat, wrinkled, chocolate, 85 per oz. Season 70 days.

KING MAMMOTH HORTICULTURAL

Vine—rangy, gray-green, becoming green as plant gets older, climber. Pods—7 in. flat, bladelike, green becoming splashed with red late in season. Seed—large, irregularly oval, plump, hollow centered, cream splashed with oxblood, 35 per oz. Season 85 days to green shell beans.

LAZY WIFE

Vine—climber, 4 ft. bright green. Pods—6 in. flat-oval, straight, stringless. Seed—white, round, 65 per oz. Season 73 days.

LONDON HORTICULTURAL

Vine—compact, 4½ ft. flowers pink, climber. Pods—7 in. oval, straight, stringless, fibreless. Seed—buff with dark red markings, almost round, 55 per oz. Season 70 days.

Western Peas and Beans

BEANS — POLE

McCASLAN

Vine—4 ft. good climber, bright green. Pods—7½ in. dark green, flat-oval, curved, stringless. Seed—white, long, kidney-shape, 80 per oz. Season 65 days.

MISSOURI WONDER

Vine—climber, large, dark green crumpled leaves, white flower. Pods—7 in. constricted, dark green, stringy, somewhat tough. Seed—flat-oval, cinnamon splashed with olive green, 65 per oz. Season 70 days.

RED SPECKLED CUT SHORT

Vine—5 ft. dull green, climber, extremely hardy. Pods—4 in. straight, round, dark green, almost stringless. Seed—mottled, purplish-gray, round, truncate, 100 per oz. Season 74 days.

New Stringless Green Pod

BEANS — POLE

SCARLET RUNNER

Vine—12 ft. rank, open, gray-green. Pods—8 in. flat oval, straight, thick, coarse and rough surface. Seed—plump, long oval, bluish-violet, mottled with blue-black, 25 per oz. Season 90 days.

STRIPED CREASEBACK

Vine—4½ ft. climber, dark green, purple stems, very hardy. Pods—7 in. medium green, round, straight somewhat stringy. Seed—plump, oval, tan with black stripes, 105 per oz. Season 70 days.

TENNESSEE WONDER

Vine—climber, green foliage, purplish stems, flowers bluish-pink. Pods—straight, gray-green, creaseback, double barreled, somewhat stringy. Seed—brownish-gray, dark gray stripes, kidney shape, 70 per oz. Season 71 days.

WHITE CREASEBACK

Vine—4 ft. dull green, climber, white flowers. Pods—6 in. slightly curved, round, med. dark green, stringless when young. Seed—ivory white, round, oval. Season 68 days.

WHITE DUTCH RUNNER

Vine—12 ft. open, rank, gray-green. Pods—8 in. flat oval, thick, straight rough, gray-green, coarse. Seed—white, plump, long oval, smooth, 20 per oz. Season 90 days.

YARD LONG

Vine—6 ft. cowpea type, rank, dark green, curly leaf. Pods—18 to 26 in. tough except when young, light green. Seed—reddish brown to tan, oblong, plump, 194 per oz. Season 70 days.

BEANS — POLE LIMA

BURPEE'S BEST (Fordhook Pole)

Vine—12 ft. very rank, dark green, gray-green markings on leaf. Pods—4½ in. straight backed, thick, plump, 3 to 4 beans. Seed—potato type, dimpled, green tinted, 35 per oz. Season 90 days.

CARPINTERIA

Vine—8 to 10 ft. bright dark green. Pods—5½ in. curved flat, 3 to 5 beans. Seed—large, 25 per oz. green tinted to creamy white, smooth, as plump as Ideal Pole Lima, semi-circular. Season 88 days.

BEANS — POLE LIMA

CHALLENGER

Vine—12 ft. very rank dark green, gray-green markings on leaf. Pods—4½ in. straight backed, thick, plump, 3 to 4 beans. Seed—potato type, dimpled, green tinted, 35 per oz. Season 90 days.

FLORIDA BUTTER

Vine—8 to 10 ft. bright dark green. Pods—3½ in. curved, flat, 2 to 4 beans. Seed—small, 90 per oz. cream streaked with deep violet and purplish-brown. Season 90 days.

Rogers Stringless Black Valentine

BEANS — POLE LIMA

GIANT PODDED

Vine—10 to 12 ft. rank, good climber, dark green. Pods—6 to 8 in. flat, very wide and curved, 3 beans. Seed—very large, flat, smooth, white, 20 per oz. Season 90 days.

IDEAL POLE LIMA

Vine—8 to 10 ft. dark bright green. Pods—5½ in. curved, flat, 3 to 5 beans. Seed—large, 25 per oz. smooth, more plump than common lima or Burpee Bush, creamy white, semi-circular in shape. Season 88 days.

KING OF THE GARDEN

Vine—8 to 10 ft. bright dk. green. Pods—5½ in. curved, flat, 3 to 5 beans. Seed—large, 25 per oz. green tinted to creamy white, smooth, as plump as Ideal Pole Lima, semi-circular. Season 88 days.

LARGE WHITE LIMA

Vine—8 to 10 ft. bright dark green. Pods—5½ in. curved, flat, 3 to 5 beans. Seed—large, 25 per oz. green tinted to creamy white, smooth, as plump as Ideal Pole Lima, semi-circular. Season 88 days.

LEVIATHAN

Vine—8 to 10 ft. dark green, good climber. Pods—5½ in. curved, flat, 3 to 5 beans. Seed—elongated, flat, white and smooth, 25 per oz. Season 90 days.

SIEBERTS

Vine—8 to 10 ft. med. dark green, rank, good climber. Pods—5½ in., 3 to 5 beans, flat curved. Seed—large, 25 per oz. White fairly smooth and very flat. Season 90 days.

SIEVA

Vine—8 to 10 ft. rank, green foliage, good climber. Pods—3 in. curved, flat, 2 to 4 beans. Seed—small, 90 per oz. white, flat, smooth. Season 75 days, continuous bearer.

WILLOW LEAF

Vine—bright green, narrow, pointed leaves, good climber. Pods—3½ in. curved, flat, 3 to 4 beans. Seed—small, 95 per oz. white, smooth. Season 75 days.

WOOD'S IMPROVED

Vine—8 ft. med. dark green, good climber. Pods—3½ in. curved, flat, 2 to 4 beans. Seed—intermediate in size, 60 per oz. white, flat, smooth. Season 78 days.

BEANS — BUSH LIMA

BURPEE BUSH

Bush—compact, runnerless, dark green, 20 in. Pods—5 in. flat, curved, 3 to 4 beans. Seed—large, 25 per oz. flat wrinkled, dingy white with brownish lines radiating from hilum. Season 75 days to green beans.

BURPEE IMPROVED

Bush—compact, erect, runnerless, dk. green, 20 in. Pods—5½ in. curved, flat but less so than Burpee Bush, 3 to 5 beans. Seed—large, 23 per oz. creamy white, somewhat flat, dimpled. Season 75 days to green beans.

FORDHOOK

Bush—compact, erect, 19 in. gray-green. Pods—5 in. straight to recurved, thick, plump, 3 to 5 beans. Seed—potato type, dimpled, greenish-white, 21 per oz. Season 75 days to green beans.

HENDERSON

Bush—erect, runnerless, dk. glossy green, 16 in. Pods—3½ in. curved, flat, dk. green, 3 to 4 beans. Seed—small, 90 per oz. white, flat. Season 65 days to green beans. Canning variety.

JACKSON WONDER

Bush—erect, runnerless, 16 in. dk. glossy green. Pods—3½ in. flat, curved, 2 to 4 beans. Seed—small, 75 per oz. flat, cinnamon splashed with deep violet. Season 65 days.

McCREA'S LIMA

Bush—erect, runnerless, dk. glossy green, 16 in. Pods—3¼ in. curved, thick round, oval in cross section. Gray green, 3 to 5 beans. Seed—potato type, wrinkled, green tinted, truncate, 43 per oz. Season 75 days to green beans.

WOOD'S PROLIFIC

Bush—erect, runnerless, 16 in. dk. glossy green. Pods—3½ in. flat, curved, 2 to 4 beans. Seed—small white, flat, 75 per oz. Season 65 days.

SWEET CORN

SWEET CORN

ADAMS EXTRA EARLY (First of All. Ideal. Burlington)

Ears—6 to 7 in. long with 12 to 14 rows of fairly sweet white kernels. Stalk—6 to 7 ft. Season—75 days. Popular largely in the South. A hardy, early, heavy yielder.

ADAMS LARGE IMPROVED

Ears—7 to 9 in. long with 12 to 14 rows of white kernels, reasonably tender when young. Stalk—6 to 7 ft. Season—75 days. Used principally in the South. A high yielding strain.

Rogers W. R. Alaska

SWEET CORN

BANKCROSS C13 (Hybrid)

A new hybrid producing a large ear of good quality. Early and showing much promise. We have the inbreds for production of this corn. See 1938 trials report, Connecticut Experiment Station, Mt. Carmel.

BURBANK BANTAM

Ears—7 to 8 in. long, with 12 to 14 rows of deep yellow kernels. Equal in flavor to 8-rowed Bantam. Stalk—5 to 6 ft. Season—80 to 84 days. Produces well under adverse conditions.

BURBANK NORTHERN CROSS

Ears—8 to 9 in. long with 12 to 14 rows of deep yellow kernels. Nice uniformity of maturity and ear size. Resistant to Stewarts Disease, hardy, prolific. Stalk—6 to 7 ft. Season—84 to 88 days.

COUNTRY GENTLEMAN (Shoe Peg.)

Ears—7 to 8 in. long, small cob, deep, white, slender kernels with no row formation. Tender, sweet, excellent quality. Stalk—6½ ft. Season—95 days.

COUNTRY GENTLEMAN HYBRID 3x6 (Illinois)

Ears—6½ to 7 in. long, with very deep slender white kernels of good quality. A good yielder furnishing high cut per ton. Uniform. Stalk—6½ ft. Season—85 to 90 days. Produced from carefully bred selected inbred strains.

SWEET CORN

COUNTRY GENTLEMAN HYBRID 5x10 (Illinois)

Ears—7 in. long with slightly larger white kernels than the 3x6. A very high quality corn, yielding high cut per ton. Uniform. Stalk—6½ to 7 ft. Season—85 to 90 days. Produced from carefully bred selected inbreds.

COUNTRY GENTLEMAN HYBRID 8x6 (Illinois)

Ears—7 to 8 in. long with very deep small tender white kernels, outstanding quality and cut per ton. Uniform. Stalk—7 ft. Season—85 to 90 days.

EARLY EVERGREEN

Ears—8 in. long, with 14 to 18 rows of medium size, deep kernels of good quality and sweetness. Stalk—6 to 7 ft. Season—87 to 93 days.

EARLY PEARL

Ears—5½ in. long with 12 to 14 rows of small white deep kernels, very tender and sweet. Stalk—4½ to 5 ft. Season—72 to 76 days.

GILL'S GOLDEN EARLY MARKET

(Gill's Golden Early Sweet. Golden Hummer. Extra Early Yellow. Extra Early Sweet.)

Ears—5½ to 6 in. long, with 12 rows of fairly broad yellow kernels of fine quality. Stalk—4 to 5 ft. Season—68 days.

SWEET CORN

GOLDEN BANTAM 8-ROWED

Ears—6 to 7 in. long with 8 rows of kernels of highest flavor and sweetness. Stalk—4½ to 5 ft. Season—78 to 80 days. An excellent selected northern strain.

GOLDEN CROSS HYBRID

Ears—7 in. long, with 10 to 14 rows of deep, golden kernels, sweet and tender. High yielder, resistant to Stewarts Disease, hardy—the foremost yellow hybrid on the market today. Very uniform. Stalk—5½ to 6 ft. Season—88 days.

Rogers Ace

SWEET CORN

GOLDEN OR BANTAM EVERGREEN

Ears—8 in. long, with 12 to 14 rows of medium width kernels, good quality and yields well. Stalk—6 to 7 ft. Season—85 to 90 days.

GOLDEN GIANT

Ears—6½ to 7 in. long, 10 to 14 rows of rather narrow, deep yellow kernels of good quality. Stalk—5 to 5½ ft. Season—80 to 85 days. Preferred by some canners to Bantam.

Rogers Chief

SWEET CORN

GOLDEN COLONEL

Ears—7 to 8 in. long, with deep kernels of no row formation, a yellow shoe peg type of very good quality and sweetness. Yields well. Stalk—6 to 7 ft. Season—95 days.

GOLDEN SWEET

Ears—8 in. long, 12 to 14 rows of yellow kernels similar to Golden Evergreen but thicker. Stalk—6 to 7 ft. Season—83 to 87 days. Resists drought well.

GOLDEN SUNSHINE

Ears—6 in. long, 10 to 12 rows of narrow, deep, yellow kernels of fine quality. Stalk—4 to 5 ft. Season—72 to 76 days. Fine for early market and garden.

INDIGOLD (Hybrid)

Ears—8½ in. long, 10 to 14 rows of deep yellow kernels. Fine quality. Uniform. Stalk—5½ to 6 ft. Season—85 to 90 days. A new hybrid which in some sections will outyield Golden Cross.

IOWANA (Hybrid)

Ears—9 in. long with 12 to 14 rows of medium width deep yellow kernels of excellent quality. Uniform. Stalk—6 to 6½ ft. Season—85 to 90 days. A new high yielding hybrid destined to be popular.

SWEET CORN

MARCROSS NORTHERN (Top Cross)

Ears— $6\frac{1}{2}$ in. long, 12 rows of medium width, deep, yellow kernels. Sweet, tender. Stalk— $5\frac{1}{2}$ ft. Season—68 to 73 days. A popular early sort for market and garden.

Rogers Climax

SWEET CORN

NARROW GRAIN EVERGREEN

Ears—8 to 9 in. long with 18 to 20 rows of very deep slender white kernels. Sweet and tender. Stalk—7 to 8 ft. Season—95 to 100 days.

NARROW GRAIN EVERGREEN TOP CROSS

Ears—8 to 9 in. long with 18 to 20 rows of very deep white slender kernels. A high yielding uniform cross with quality. Stalk—7 to 8 ft. Season—90 to 95 days.

NARROW GRAIN EVERGREEN HYBRID 14x13 (Illinois)

Ears—8 to 9 in. long, 18 rows of very deep narrow white kernels, of fine quality and yield. Tender and sweet. Stalk—7 to 8 ft. Season—90 to 95 days.

PEARL CROSS (Top Cross)

Ears—6 to 6½ in. long with 12 rows of narrow deep white kernels, very tender and sweet. Stalk—5½ ft. Season—72 to 76 days. A high quality early garden and market sort.

PURGOLD (Hybrid)

Ears—7½ in. long, with 12 to 14 rows of medium width yellow kernels of fine quality, and tenderness. Uniform. Stalk—5½ to 6 ft. Season—85 to 90 days. A new hybrid similar to Golden Cross, and yielding high tonnage.

SWEET CORN

SIXTY DAY GOLDEN

Ears—5½ to 6 in. long, with 12 rows of rather wide yellow kernels of very good quality. Stalk—5 ft. Season—60 days. A good early market or garden corn.

Rogers Victor Canner

SWEET CORN

SIXTY DAY WHITE

Ears—5½ to 6 in. long, with 12 rows of rather broad white kernels of good quality. Stalk—5 ft. Season—60 days. Market and garden sort.

ROGERS G Mc S HYBRID

Ears—8 in. long, with 12 rows of deep white kernels, tender and sweet. Cylindrical from end to end. Vigorous, hardy, uniform. Stalk—6 ft. Season—85 to 90 days. A new white hybrid of fine promise just introduced.

STOWELLS EVERGREEN

Ears—8 to 9 in. long, with 16 rows of deep white kernels. Stalk—7 to 8 ft. Season—95 to 100 days. Stock bred from selected well known strains.

SNOWFLAKE (Boone County White)

Ears—9 to 10 in. long, thick, with 14 to 16 rows of large white dented kernels. Stalk—9 ft. Season—95 to 100 days. Used principally in the South.

TENDERGOLD (Top Cross)

(Golden Sunshine Top Cross)

Ears—7 to 7½ in. long, with 12 rows of narrow deep kernels. Sweet, tender, fine quality. Yields well. Stalk—5 to 5½ ft. Season—77 days. For canning or market and garden.

SWEET CORN

TRUCKERS FAVORITE

Ears—8 in. long, with 12 to 16 rows white, rather smooth kernels, fairly tender and sweet at edible stage. Stalk—6 to 7 ft. Season—80 days. Used mainly in the South.

Season: 63 days

Rogers Profit Maker

SEEDS OF QUALITY

PEAS

The breeding and growing of peas for seed is a business in which we have specialized for 63 years. That experience is worth something; it is back of every big bag of seed we send out—and it is your assurance of quality.

WE GROW PEAS ONLY IN THE WEST

BEANS

Beans do best in the West, where the long sunshiny days, clean soil, and life-giving waters of irrigation combine to make an ideal situation for the development of disease resistant strains.

WE GROW BEANS ONLY IN THE WEST

SWEET CORN

Northern-grown corn is famous for its vitality. It makes a beautiful sample and does well in any climate.
